PRESENTATIONS: Presentations that address the 2006 meeting theme topics are particularly encouraged. Presentations on other topics you feel would be of interest to the group are also welcome. We will accommodate as many oral presentations as time allows, with preference given to those that address the meeting theme topics. Presentations will be allotted 15-20 minutes with 3-5 minutes for questions and answers. If you wish to give more than one presentation, please make multiple submissions and indicate your order of priority. The steering committee will notify you by **October 11, 2006** if you are chosen to give an oral presentation. Power Point presentations are preferred but slides or overheads can be accommodated with advance notice. If you are not chosen for an oral presentation we **encourage** you to prepare a poster presentation.

POSTERS/DISPLAYS: Poster presentations or other display materials on any topic relating to lake sturgeon in the Great Lakes are welcome and encouraged. This will provide you an ideal opportunity to inform meeting participants of your initiatives, preliminary or final study results, and issues of concern.
